

ART OF THE MASTERS PROGRAM
PRESENTS THE LIFE & WORK OF
GEORGIA O'KEEFFE

> Georgia O'Keeffe has been called one of America's greatest female artists. She earned this title during a time in history when it was only proper for women to teach art.

Through her paintings, we see hidden beauty in things such as landscapes, flowers and even animal bones that are often over looked. By doing so, she became more than just a great female artist, but a great American painter.

> During our hands on workshop, participants will have the opportunity to create their own floral paintings. Afterwards, all paintings will be signed and framed. *Please join us!*
