

ART OF THE MASTERS PROGRAM

PRESENTS THE LIFE & WORK OF

Piet Mondrian

> Dutch artist, Piet Mondrian, is recognized for the purity of his abstractions and methodical practice by which he arrived at them. In his best known paintings from the 1920s, Mondrian reduced his shapes to lines and rectangles and his palette to fundamental basics pushing past references to the outside world toward pure abstraction. His use of asymmetrical balance and a simplified pictorial vocabulary were crucial in the development of modern art, and his iconic abstract works remain influential in design and familiar in popular culture to this day.

> During our hands on session, participants will have the opportunity to play with line and color while creating their own abstract work. Afterwards, we will explore our art with a viewfinder and cutout our favorite section to be placed under glass to create our own artistic keychain / pendent. Please join us for some fun!
